

## Possessed to Skate

### Suicidal Tendencies

Let's skate!

Seemed like such an innocent toy  
He was the All-American boy  
Got a skate at eight years old  
Now the story can be told

Beware he's possessed to skate!

Skating takes him up in height  
He's a pilot on a modern flight  
See him flying through the air  
If he don't land then he don't care

Cause he rips-he rips  
When he skates-he skates  
Cause he never hesitates  
He's the wizard on the wheels  
Like a modern gladiator ain't got no fears  
So skate

He shoots the pool like a launching pad  
If it ain't insane then you can't get rad  
Skating is all that's on his mind  
He's skating radical all the time

Beware he's possessed to skate!

Looks like a magic carpet ride  
Six foot airiels inverts backside  
Optical illusion it must be  
He redefines insanity

Doesn't understand why you'd wanna walk  
Ain't got time to sit and talk  
Used to be just like you and me  
Now he's an outcast of society

Beware he's possessed to skate!

And the skating's getting radical
