

## Trip at the Brain

### Suicidal Tendencies

I gotta gotta take a trip, gotta take a trip out of this place  
I gotta gotta get away, get away from the human race  
I don't know what I'll see, don't even know what I'll find  
I don't know what to pack, never been to a trip at the mind

Trip at the brain. Trip at the brain. Trip at the brain-  
Do you know what I'm saying  
Trip at the brain. Trip at the brain. Trip at the brain-  
Well I'm going insane

I took a wrong turn and ended up at my heart  
I t could barely even pump no blood it was so thrashed and torn  
apart  
Thank it for working overtime in pain and misery  
Then I set back on the trail, headed for my destiny

Fly with me  
Flying free

Tripping  
You must be tripping  
Trip, trip, tripping  
Ya ya ya ya you're tripping

I cannot stop this trip, I forgot to pack the brakes  
Crashed straight into a concrete wall of my mistakes  
Ended up in a cemetary of a thousand wasted days  
But that's alright with me, cause that's where most of my memor  
ies lay
