

## Better Off Dead

### Suicide Commando

In the name of Jesus  
What have we done  
Slow death and diseases  
We're on the run  
No one will hear you  
You're on your own  
No one to save you  
We all die alone

We're better  
Off dead

We're the slaves of evil  
Where angels weep  
Escape from my hell  
You fucking creep  
We killed our nature  
We lost all hope  
Destroy my creature  
Where is the rope

We're better  
Off dead
