

Come Down With Me

Suicide Commando

Can you believe what I've done
I killed them all, one by one
Can you believe what I hear
I hear a voice "Kill everyone"
Can you believe what I've seen
I've seen the devil throw down a key
Can you believe what I feel
I feel the rage that poisons me

Come down with me
And see the murder all over me
Come down with me
And see the world collapse
Come down with me
And see the thoughts all over me
Come down with me
And feel the pain inside
