## **Cry For Mother**

## Suicide Commando

Mother, What have I done ? Just killed the one I loved Mother, These hands, this gun After all the love has gone

No restraint, Just pain, remove this cancer No remorse, Just die, revolt in anger

Mother

Mother This must be hell The blood recalls the smell Mother This can't be true After all I did for you

No restraint, Just pain, remove this cancer No remorse, Just die, revolt in anger

Mother

You didn't want me You didn't need me You didn't love me You did abuse me

## Mother Cry for mother
