

Death Cures All Pain

Suicide Commando

Suicide
Never hides
Always lurks my way
Immolate
Suffocate
Nothing stops this pain
Cut to bleed
Cut to die
Well these feeling will never die

Will death cure all pain?
When life leaves nothing
Will death cure all pain?
When love means nothing
Will death cure all pain?
God, will it hurt just a little?

Suicide
Dead inside
Never leaves my way
Overdose
Comatose
I can't bear this pain
Cut to feel
Cut to heal
Well these wounds will never heal

Will death cure all pain?
When life leaves nothing
Will death cure all pain?
When love means nothing
Will death cure all pain?
God, will it hurt just a little?

Suicide
Dead inside
Never leaves my way
Overdose
Comatose
I can't bear this pain
Cut to feel
Cut to heal
Well these wounds will never heal

Will death cure all pain?
When life leaves nothing
Will death cure all pain?
When love means nothing
Will death cure all pain?
God, will it hurt just a little?
