## **Jesus Wept**

## **Suicide Commando**

Living like sinners We don't even care Loosing religion We're heathen

Slowly destroying our own precious world Slowly destroying our mind

God, where are you
Don't leave me alone
God, where did we go wrong
God, where are you
I don't want to stay
God, please guide me the way

Killing our children We don't give a damn Killing our Jesus We're blinded

Slowly destroying our own precious world Slowly destroying our mind

God, where are you
Don't leave me alone
God, where did we go wrong
God, where are you
I don't want to stay
God, please guide me the way
