Genocide

Suicide Silence

We've been beating cheeks for the better part of our existence Constantly spreading disease of our humanity

Rotting her... Out

We've been fucking this whore Mother earth for awhile She's a filthy bitch anyway (2x)

Rotting her from the inside Penetrating deeper and deeper every day We are at our end So let's continue to move forward and destroy ourselves

Rotting her... Out (2x)

Genocide of all humanity Genocide of your reality (2x)
