Hold Me Up, Hold Me Down

Suicide Silence

Get off my nerves or what's left of them It shouldn't bother me so why does it? I'm letting this happen, I'm letting this happen Just haunt me gently so I can do no harm I sit well in this cavernous place Laughter is music to me Chase me further, chase me further Rat race lost with all memory gone Somebody Somebody Hold me up Hold me up Hold me up Hold me down Hold me up Hold me up Hold me up Hold me down Somebody Somebody Hold me up Hold me up Hold me up Hold me down Hold me up Hold me up Hold me up Hold me down Shocking people People, shocking people Hold me up
