

## No Pity for a Coward

Suicide Silence

Dry your eyes  
Hide your face with your hands  
One last breathe  
Hold it in

Fuck your past  
The future  
Is in your hand

Just sit back and relax  
Put your fucking shades on  
Put that gun to your head  
You're a fucking disgrace

Can your god save you now? (6x)

You coward (4x)

Drowning yourself  
In your tears  
No one has  
Pity for you

Pity for you (3x)

Seconds from the end  
What's it gonna be  
Pull the trigger bitch (4x)
