

Stop Motion

Suis La Lune

Your eyes are so pretty glittering with tears
Under the coldest sky in january
Guess i should say something, but i'm just staring

I'm stuck, i'm stuck.
Staring right into your eyes
I'm stuck, i'm stuck.
Frozen in your sight

If you'd ever come around,
I'd show you just how much i've changed.
I'm a better person now,
And not as cynical and mean.

Wasted time: i am
Wasted time: i am

You washed away all my tears
You watched me go under

If you ever will come back,
I'd show you just how much i've changed.
I'm not cold as i once were.

I'm stuck, i'm stuck.
Staring right into your eyes
I'm stuck, i'm stuck.
Frozen in your sight
