Mad in a way but I don't say It's what you're used to I got the words but can't convey I know you'll turn it all around 'cause that's the rhythms that you go through Get it back and you're not obliged to say Not intact but you're better off anyway Somehow it's never up to me What if I would say Simple words I can't relate I don't place upon your view It's the rhythms that you go through I know what I want You just take me through the motions I know what I want And that's more than you can say Since you found me out Your story still remains It's so unlike still you stay the same And all the while you're counting in your day to come But nothing ever told you You would say that it's only for a day Yesterday's last week tomorrow's on it's way And I'm falling faster all the time What if I would say Simple words I can't relate What came easy is not too late And it was always standing right infront of me I know what I want You just take me through the motions I know what I want And that's more than you can say ALl the time you thought worth saving You still end up with memories fading After all that you wouldn't do It makes no sense But it's that rhythms that you go through I know what I want You just take me through the motions I know what I want And that's more than you can say I know what I want You take me through the motions I know what I want And that's more than you can say

Since you found me out

Since you found me out Since you found me out Since you found me out
