

## What I Believe

Sum 41

Lies and deceiving is what I'm believing  
Up to my knees so hard to breathe  
It helps that you aren't there  
Can't figure out what's the right thing for me  
Guess I'll have to wait and see

So understanding but so far from the truth  
It's what I have to live with  
It's not all I wanted to be  
It's not all I wanted to see  
I can't keep on leading  
I've left what I'm leaving  
Guess that's just what I believe

Consciously taking and overly faking  
I can't believe all the things that you're saying  
Seems all so simple it's all up to you  
Time after time  
You lost what you couldn't find

It's what you could  
It's only what you could  
Don't take not what you could  
But I know what's up
