

## Flammifer

## Summoning

Beneath the moon and under star  
he wandered far from northern strands  
bewildered on enchanted ways  
beyond the days of mortal lands

Through evernight he back was borne  
on black and roaring waves that ran  
o'er leagues unlit and foundered shores  
that drowned before the days began

His sword of steel was valiant  
of adamant his helmet tall  
an eagle-plume upon his crest  
upon his breast an emerald.
