

## Natural Light

Sun Kil Moon

I got some news on you from a friend  
you're in Charlotte again  
teaching Spanish at high school

he said you're going by Joy  
you cut your hair like a boy  
& you don't talk to your old friends

I found a picture from before the fight  
we're in natural light  
& you're sitting on my lap  
like everything's alright

I've walked around with you on my mind  
the names we used at the time  
you know I've changed myself since then

I've thought on things that we said  
what if we'd had the kid  
I guess he'd be 15

I found a picture from before the fight  
we're in natural light  
& you're sitting on my lap  
like everything's alright
