

## Television

Sunny Day Real Estate

She's always around and under my skin  
Watching her move  
How she tells a story  
It's only a dream of lovers and lies  
She's cruel and she's free like television

She's in my head, like television...

We fall into bed  
Our tongues are tied  
Her lips and her eyes are so disarming  
And when we embrace, she pulls me inside  
I wake up alone with television  
Crawl around the story  
Oh, how her waves wash over me  
Lost inside her story

She shows me the world  
I see through her eyes the beauty of brave new understanding  
It's only a dream of lovers and lies  
I carry with me in all my vision  
She's always around and under my skin  
She's always around and under my skin
