

Mean As You

Sunny Sweeney

If I was mean as you
I would of done that too
I'd be running down your name
While I'll was putting out the flame
With someone new
If I had a streak like that
Down the middle of my back
Baby it'd be all black and blue
Beat up, broken down and bruised
If I was mean as you
Now baby don't you worry
I ain't waisting my sweet time
I want you to be the first to know
You're the last thing on my mind
If I cared enough to hurt you
You'd never get a good night rest
Wondering when I was goin to do
The next nasty thing to you
Baby I learned from the best

If I was mean as you
All the hell I'd put you through
I'd be running down your name
While I'll was putting out the flame
With someone new
If I had a streak like that
Down the middle of my back
Baby it'd be all black and blue
Beat up, broken down and bruised
If I was mean as you

I'd let the guy spend the night
Make sure you see his car
I'd put it on a billboard
Just how terrible you are
I's shoot another arrow through your heart
If I was mean as you
If I had a streak like that
Down the middle of my back
Baby it'd be all black and blue
Beat up, broken down and bruised
If I was mean as you [x2]
