

My Bed

Sunny Sweeney

I don't know you
I don't miss you when you're gone
You don't know me
Baby where did we go wrong
I don't need you
Why ain't this over yet?
Now you're just sleepin' in my bed

You don't touch me
You don't kiss me good night

I don't touch you
I just turn out the lights

Close my eyes and
Pull the covers over my head
Now you're just sleepin' in my bed

You're just sleepin' in my bed
We're both wishin'
We were anywhere else instead
All the love we had is dead
Now you're just sleepin' in my bed

I remember
The day took your name
I surrendered
Gave you everything

I'll always love you
At least that's what we said
Now you're just sleepin' in my bed

You're just sleepin' in my bed
We're both wishin'
We were somewhere else instead
All the love we had is dead
Now you're just sleepin' in my bed

I don't know you
I don't miss you when you're gone
You don't know me
Baby where did we go wrong
