

# Nothing Wrong With Texas

Sunny Sweeney

If you're looking for a home cook  
If you're looking for a sunshine  
If your looking for a way back to the arms of someone who's downright  
If you're looking for an open door  
Somewhere you can bow your head  
Makes you remember what you're daddy taught you 'bout where angels tread

You might have to leave to see that you wanna come back  
A big old world out there might change your perspective  
Spend so much time running around in that big old Pontiac  
It's time to go back to where I learn what respect is  
There's nothing wrong with Texas

If you're searching for a home game  
In a one stop light town  
Just follow the traffic and the marching band, the whole place shuts down  
If you're looking for an old friend  
Maybe a missing link  
A handshake means what a handshake means and a smile can buy you a drink

Might have to leave to see that you wanna come back  
A big old world out there might change your perspective  
Spend so much time running around in that big old Pontiac  
It's time to go back to where I learn what respect is  
There's nothing wrong with Texas

You might have to leave to see that you wanna come back  
A big old world out there might change your perspective  
Spend so much time running around in that big old Pontiac  
It's time to go back to where I learn what respect is  
Don't know when I left what I expected  
There's nothing wrong with Texas  
There's nothing wrong with Texas  
There's nothing wrong with Texas  
Nothing wrong with Texas
