

# Choose to Be Me

Sunrise Avenue

I was raised by this town  
To believe the words they put inside me  
They made me hide  
Inside their loving arms around me

I turned away  
I choose the path that I believe in  
I stand today  
Above the shady nights behind me  
I fear nothing  
But the fact that I'm afraid of everything  
I knew my name  
Would only be for lonely riding

Choose to be me, to be free, to be my way  
I saw the light shining right in my eyes  
Choose to be me, to be free, to be my way

Inside the night  
I write the lonely story of my life  
It makes me cry  
But I want to know it 'til the last line  
I fear nothing  
But the fact that I'm afraid of everything  
Destiny - blow it away  
I am made for lonely riding

Choose to be me, to be free, to be my way  
I saw the light shining right in my eyes  
Choose to be me, to be free, to be my way  
With a smile on  
With a smile, hey!

Every day my sun keeps rising  
Giving me the strength that I need  
All the faith I need for only you and I

Happiness is here with me  
It's made for all the days I see  
And happiness is holding me around  
And round and round and round and round

I choose to be me, to be free, to be my way  
I saw the light shining right in my eyes  
Choose to be me, to be free, to be my way  
With a smile on  
With a smile

I choose to be me, to be free, to be my way  
I saw the light shining right in my eyes  
Choose to be me, to be free, to be my way
