

# I Gotta Go

Sunrise Avenue

I gotta run,  
I gotta hide,  
I can feel them close behind.  
I'm not gonna be feeding them no more.

I gotta move,  
stay in the dark,  
I gotta lead astray those sharks,  
the grass is green where I'm taking this ship right now.

I've been dreaming, yeah dreaming.

All my life I've been dreaming I could leave this mess behind,  
this time I am waiting for a chance to say goodbye.  
I gotta go - out of my way.  
I gotta go - out of this place.  
No chains I'm breaking free for good.

I gotta run,  
I gotta fight,  
I'm the captain of my life.  
Sailing seas like a dolphin with no home.  
Purple sunsets and air that I can breathe,  
I'm not gonna be turning back no more.

I've been dreaming, yeah I've been dreaming.

All my life I've been dreaming I could leave this mess behind,  
this time I am waiting for a chance to say goodbye.  
My life I've been hoping I could leave this mess behind,  
this time I am praying for a chance to say goodbye.  
I gotta go - out of my way.  
I gotta go - out of this place.  
No chains I'm breaking free for good.

2x

Bright lights in the sky,  
blue flower and rainbows.  
Bright lights in the sky,  
looking like diamonds.

All my life I've been dreaming I could leave this mess behind,  
this time I am waiting for a chance to say goodbye.  
My life I've been hoping I could leave this mess behind,  
this time I am praying for a chance to say goodbye.  
I gotta go - out of my way.  
I gotta go - out of this place.  
Gotta go
