

Into The Blue

Sunrise Avenue

Here we are deep in the darkness
Wearing midnight air
You close your eyes and feel my breath
Embracing through your hair

By the bed, the silver moon on you
Makes me fade away into the blue
It's you and I. We leave the world behind

Into the blue...

Only you can hear my whispers
Filled with velvet dreams
The thousand words are floating in the room
Like wondrous streams

By the hand you take me through the night
We flow across the sky and taste the light
It's you and I. We leave the world behind

Into the blue we rise, into the blue
Into the silence, we stay the whole night there

The dawning day undresses us
With golden rays of light
Here we are, a pair of hearts
Feeling complete inside

Right here the whole eternity
Is smiling all the way for you and me
It's you and I. We leave the world behind

Into the blue we rise, into the blue
Into the silence we stay the whole night there
Into the blue we're rising, into the blue
Into the silence, we stay the whole night there

Right here the whole eternity
Is smiling all the way for you and me
Just you and We leave the world behind
