

Put your hands on me
I wanna feel the hungry fingers on my skin
Let's see how you luv me
I wanna make you a mess inside

Put your hands on me
I wanna feel the fever and the beat inside you

When you look me with those eyes
You say you wanna be all mine

Get nasty
And blow me and my mind
Get nasty
When the morning comes you'll feel so wild

Put your lips against my ear
I wanna hear each and every sound you make

I wanna taste the sweat on your skin
I wanna eat all, it is all mine

Let your fantasies come out
'couse nothing is too wicked for us tonight
We're all joy and lust
We wanna feel each other all inside

Get nasty
And blow me and my mind
Get nasty
When the morning comes you'll feel so wild
