

Sex & Cigarettes

Sunrise Avenue

Bad girls wanna get sex and cigarettes,
they think they have a thousand lives
to waste them all as they want.
I don't wanna go there, no.

Good girls wanna have handsome suit men,
they hope that's the way to all the happiness in the world.
I don't wear no tie, no.
No, no.

Save me and give me a direction,
don't know how to find another you since you're gone now.
It breaks me and it kills my erection,
I got no appetite and I'm far from all right.

Cool girls wanna wear fashion clothes, trendy hair,
they look like a Christmas tree.
I couldn't ever get them,
'cause I'm out of style, yeah!

The bad girls wanna get sex and cigarettes.
I don't give a damn about these ladies,
I just want you and me as it was before, yeah!

Save me and give me a direction,
don't know how to find another you since you're gone now.
It breaks me and it kills my erection,
I got no appetite and I'm far from all right.

2x

Here's my wish list:
deep eyes, soft lips
and a life so she don't need mine.
A good heart, strong mind,
all real outside and truly all just mine.

Save me and give me a direction,
don't know how to find another you since you're gone now.
It breaks me and it kills my erection,
I got no appetite and I'm far from all right.
