

Time Has Come

Sunrise Avenue

Gave me witness spotlights
Tell me I'm the one tonight
I'd like to be cool
I'm playing with you again
Their faces on the screen
Own listen time in between

I dream that it's true
I'd lied to be cool

Something nice
Something nice
It's now I'm made for

What if my
Time has come to be the one
Be the one who makes it
The glory son
The only one
Underneath the sky

Save your warnings
And let me be
It's my way of living

I pray I'll stand in the light
All you can long
You can hold
You can hold me tight

I'd like to be cool
And I'm playing with you
It's something nice
Something nice
It's now I'm for

What if my
Time has come to be the one
To be the one who makes it
The glory son
The only one
Underneath the sky

Save your warnings
And let me be
It's my way of living

It's my time to make it
You used my time

It's my
It's my time to make it

fact is a fact
that it's my time
it's my time to make it

fact is a fact
that it's my time
it's my time to make it

fact is a fact
that it's my time
it's my time to make it

yeah
What if my

What if my
Time has come to be the one
Be the one who makes it
The glory son
The only one
Underneath the sky

My time has come to be the one
Be the one who makes it
The glory son
The only one
Underneath the sky

Save me baby and let me be
My way of living
Of living
Of living
