

What I Like About You

Sunrise Avenue

Some days, you know, it's too hard to look on the bright side
Some days you wanna run from it all and hide
Sometimes you feel like all that you need is a short break
Some days you feel alone and it's too much to take

Bridge:

Doesn't matter how bad
I know I always have you next to me
Doesn't matter how hard it will be on my heart
I always land on my feet

Chorus:

What I like about you
Is that you're all mine
Treat me so fine
Hope we're always gonna be this way
Your eyes when you smile
Heal me inside
And you always make a brighter day

When you are not around
I am down on the ground
That's what I like about you
And I got a feeling
I think you kinda like me too
I think you kinda like me too

Some mornings it is hard trying to smile to a mirror
Some nights are only filled with the cold sweat and horror
These times you feel like you are the worm on a grass field
Hungry birds flying low and you seem to have no shield

Bridge:

Doesn't matter how bad
I know I always have you next to me
Doesn't matter how hard it will be on my heart
I always land on my feet

Chorus:

What I like about you
Is that you're all mine
Treat me so fine
Hope we're always gonna be this way
Your eyes when you smile
Heal me inside
And you always make a brighter day

When you are not around
I am down on the ground
That's what I like about you
And I got a feeling
I think you kinda like me too
