(I'll set you free)
Who will love me now
Who will ever love me, who will ever love me

In the forest, there's a monster
And it looks so, very much like me
Won't someone, hear me singing
Please save me, please rescue me

In the forest, there's a monster
And it looks so, very much like me
Won't someone, hear me singing
Please save me, please rescue me

Who will love me now
Who will ever love me

Who will love me now
Who will ever love me

Who will love me now
Who will ever love me, (who will ever love me..)
