

## Please Save Me

Sunscreem

(I'll set you free)  
Who will love me now  
Who will ever love me, who will ever love me

In the forest, there's a monster  
And it looks so, very much like me  
Won't someone, hear me singing  
Please save me, please rescue me

In the forest, there's a monster  
And it looks so, very much like me  
Won't someone, hear me singing  
Please save me, please rescue me

Who will love me now  
Who will ever love me

Who will love me now  
Who will ever love me

Who will love me now  
Who will ever love me, (who will ever love me..)
