```
(I'll set you free)
Who will love me now
Who will ever love me, who will ever love me
In the forest, there's a monster
And it looks so, very much like me
Won't someone, hear me singing
Please save me, please rescue me
In the forest, there's a monster
And it looks so, very much like me
Won't someone, hear me singing
Please save me, please rescue me
Who will love me now
Who will ever love me
Who will love me now
Who will ever love me
Who will love me now
Who will ever love me, (who will ever love me..)
```
