Trouble, trouble will always find you  
But you're not alone, you're not alone  
Heaven, heaven will soon desert you  
But you're not alone, you're not alone when the wind blows  
Trust in love to save  
Trust in love to save  
Trust in love to save

Running, running will always tire you  
You're not alone, you can't be alone  
Hiding, hiding will now expose you  
You're not alone, you're not alone when the wind blows  
Trust in love to save, the rain is falling  
Trust in love to save, the rain is falling  
It's out of our hands, the rain is falling  
It's out of our hands, the rain is falling

Freedom, freedom will not escape you  
You're not alone, you're never alone  
Prison, is only a state of mind for you  
You're never alone, and you got no  
Trust in love to save, the rain is falling  
You're not alone, you're not alone  
It's out of our hands, the rain is falling  
You're not alone, you're not alone  
It's out of our hands, You're never alone  
And you got no...
