

## Medicine

Sunset Sons

Every clear, you are to every clear  
Shame I'm on, just never near  
To hell you say  
Forever more, I'll always be for the cause  
You was the help medicine since of everything

Oh, I'm forever leaving  
Through all these lonely days  
All I know is Katie you're the reason  
All my guns out here to live  
All I love, the devil goes a long turn  
Katie you're my medicine,  
Medicine to me

I woken up, I finally spoken up  
Now it's the time to take my wrongs  
And make them right  
Oh I'm forever leaving,  
Through all these lonely days  
All I know is Katie you're the reason  
All my guns out here to live  
All I love, the devil goes a long turn  
Katie you're my medicine,  
Medicine to me, medicine to me

My fears, my faults, my broken oath  
My stars, my words, stuck in my throat  
My fears, my faults, my broken oath  
My lies, my tears, for you alone  
My fears, my faults, my broken oath  
My skies, my words, stuck in my throat  
My fears, my faults, my broken oath  
My lies, my tears, for you alone

Come found me, hell I'm bleeding  
What's still left to say  
All I know is Katie you're the reason  
All I know is out here to live  
All I love, the devil goes a long turn  
Katie you're my medicine,  
Medicine to me, medicine to me
