

September Song

Sunset Sons

Waitin' for emotion startin' again
Beginin' aings,
the easy way in
They try to find a skinny,
cammy, camy way in
You can beat as they on,
together the leaf

Hang on, it's not over,
we can find a little time just to be
Hang on, it's not over, j
ust take a little moment to breath
Hang on, it's not over (2x)

Lookin' to the mirror to find the way out
From the crowd to keep you, tryin' without
Try to keep your face out of the light
Spend the days, ackin' for nights
Find it and figure out where you can start
Maybe take a good look in your heart
Time to make a call,
make a telephone ring I
've been waitin' for what we can say

Hang on, it's not over,
we can find a little time just to be
Hang on, it's not over, j
ust take a little moment to breath
Hang on, it's not over (2x)

Hang on, it's not over,
we can find a little time just to be
Hang on, it's not over, j
ust take a little moment to breath
Hang on, it's not over (2x)

I remember the day or remember the days
I remember the day or remember the days
I remember the day do you remember the days
Cuz I remember the day, I remember the days
