

Blood Is The New Black

Sunshine

Blood's the new black
Last night I thought I'm gonna crash again
everybody screaming, I told you stay away
anybody listenin'? anybody needs my help?
point your finger at the innocent

innocent, innocent

blood's the new black, shiny and bright
you don't need to see the light
end of the tunnel, let's make this clear
this is the only way to get out of here

my world is never changing, it's called retrospect
my only dream is taken, my life a bottleneck

(Blood's the new black)
faint voices, keep digging in my brain
I'm restless, silhouette again
anybody listenin'? this is warning shot
are you back in the game or not?

innocent, innocent, innocent, innocent

blood's the new black, shiny and bright
you don't need to see the light
end of the tunnel, let's make this clear
this is the only way to get out of here

my world is never changing, it's called retrospect
my only dream is taken, my life a bottleneck

stop right now, I know that you read this letter
stop right now and I promise, this is forever

my world is never changing, it's called retrospect
my only dream is taken, my life a bottleneck
god help me, it's not easy
we were too close to the end
god help us, it's not easy
quietly comprehend
