

Tokyo Bassline

Sunshine

You're gonna love this cryptic sound
it's in your face
it's in your bones
you're gonna love this cryptic sound
it's like a curse
it makes you dance
it's boiling in your blood
when you're moving to the bass line
exploding in your head
when you're bouncing to the bass line
it's boiling in your blood
when you're dancing to the bass line
exploding in your head
when you're moving to the bass line

party
we've got the party!
you wanted to lose me
you wanted to keep me alive
glitch-snake-body
you wanted to keep me
you wanted to lose me tonight
glitch-snake-body
next time, next time, next time we can talk about it
next time, next time, now - it's over
all the boys who look like girls
and all the girls who look like boys
and all the boys who dress like girls
and all the girls who trash like boys
they stay up all night, sleep all day
that's what they do but tonight is over!
nanananananana nananana the night is over!
reflections of the night
all the sweat on the ceiling
teardrops of pills
melting down
get me out of here
every crime needs a victim
time to pull out
it's time to pull out

it's boiling in your blood
when you're moving to the bass line
exploding in your head
when you're bouncing to the bass line
it's boiling in your blood
when you're dancing to the bass line
exploding in your head
when you're moving to the bass line

party
we've got the party!
you wanted to lose me
you wanted to keep me alive
glitch-snake-body
you wanted to keep me
you wanted to lose me tonight

glitch-snake-body
next time, next time, next time we can talk about it
next time, next time, now - it's over
all the boys who look like a girls
and all the girls who look like boys
and all the boys who dress like girls
and all the girls who trash like boys
they stay up all night, sleep all day
that's what they do but tonight is over!
nanananananana nananana the night is over!
nanananananana nananana tonight is over
