

Your tears on my pillow, velvet suicide
looks like a diamond, looks like a shadow
tears of a happiness, I miss you every night
pick up the telephone, stop silly words
destroy myself again

I sit on the floor, self-satisfied
like a wild animal, velvet suicide
you are close to me, you're inside of me
satellite of love, yeah
come on, destroy myself again

I just sit on the floor, velvet suicide
stars shine everywhere, velvet suicide
something is broken, I guess
can I fix it or was it my mind

You are close to me, velvet suicide
you are inside of me, velvet suicide
satellite of love
yeah, come on, come on, come on, come on

velvet suicide

Hey sweetie, you should be close to me
