

Sunshine - Venom

You start at the end and end up nowhere
counting the numbers from ten to zero
half dead man, somewhere in wasteland
missing the point, dead plan, blind hero

I'm counting the nubers
from ten to zero
now - i'm counting the numbers
from ten to zero
now - i'm conuting the numbers
from ten to zero
No need to be tame
No need to be tame !

CHORUS :

I tried to set by brain on fire
levitate and listen to "Death In June"
shivering hands, the wolf is a liar
silver and gold, head on the Moon.

Can you really see all the stitches?
The sky above is full of scars
welcome to hell, god bless all you bitches
enemies are firends, friends moved to Mars

I'm counting the numbers
from ten fo zero
now - i'm counting the numbers
from ten to zero
now - i'm counting the numbers
from ten to zero
No need to be tame
No need to be tame!

CHORUS :

I tried to set by brain on fire
levitate and listen to "Death In June"
shivering hands, the wolf is a liar
silver and gold, head on the Moon.

Am I counting the numbers from ten to zero?
Am I counting the numbers from ten to zero?
Am I counting the numbers from ten to zero?
Am I counting the numbers from ten to zero?

CHORUS :

I tried to set by brain on fire
levitate and listen to "Death In June"
shivering hands, the wolf is a liar
silver and gold, head on the Moon.
