

# Don't Give Up

Sunstorm

I have been told a story  
just how love/life is  
and dies  
everyone takes it easy / everyone takes for instance  
just the moment to feel alive  
Let the pain go  
it's slipping out again  
what you had is not enough  
Chorus:  
Don't give up  
I can taste the freedom in the air  
feel the magic everywhere  
Don't give up  
I believe the world begins tonight  
it's alright  
don't give up  
I can see the sun set  
feel the moon light  
all around  
but in the eyes of summer ends (?)  
they just feel the emptiness  
just scared to see the light  
Don't surrender  
leave the past behind  
what you had is not enough  
Chorus  
Let the pain go  
it's slipping out again  
what you had is not enough  
Chorus  
They just feel the emptiness  
I feel magic everywhere  
don't give up  
don't surrender  
No no  
don't give up
