

# Follow Your Heart

Sunstorm

You gave up everything you've worked for  
'cause times were getting tough  
It didn't mean you were a loser  
Just out of luck

You did the best you could  
You rode the storm with pride  
Another day maybe  
Luck is by your side

I know it's all a question 'bout how you  
Change your one track mind  
It's sheer determination baby  
Just hold on tight

Follow your heart  
Follow your dreams tonight  
I know we can make it if we try  
So how about right now?  
Follow your heart  
Surrender your soul tonight  
I know we can make it, you and i  
So how about right now?

You have been suffering in silence  
Your life has been full of fear  
There's a light at the horizon  
Yeah, hope is near

Your learned your lesson, girl  
You changed your wicked ways  
Your life has just begun  
Don't throw it all away

Follow your heart  
Follow your dreams tonight  
I know we can make it if we try  
So how about right now?  
Follow your heart  
Surrender your soul tonight  
I know we can make it, you and i  
So how about right now?

Just believe that you can  
Change your world around  
Someday you will find your way  
So hold on tight  
Follow your heart

It's sheer determination baby  
Just hold on tight

Follow your heart  
Follow your dreams tonight  
I know we can make it if we try  
So how about right now?  
Follow your heart

Surrender your soul tonight  
I know we can make it, you and i  
So how about right now?
