

# Happiness

Super Junior

I've never ever forgotten you  
I've only thought of you  
Then what are you? Have you forgotten me?  
Tears of deceit are falling from my eyes

Should I look for you? I thought about it  
I I don't really know  
As this world turns  
I only have you

I've got no words to say I can't do it anyway  
I have no tears I have no feelings  
I'm standing in front of you look at me  
The boy who lived right behind you

The promised time has come  
I'm in front of you  
Though I'm crying in fear  
You wiped my tears  
You took my hand  
It will happen  
This happiness together

I paint you with my eyes closed  
I found you in my heart  
I can see the revealing light  
We can't lose a chance at eternal happiness  
Can you see me?  
Please call me to your side  
It will happen  
I love you  
Let's do it together with you forever

I've never ever forgotten you  
I've only thought of you  
Then what are you? Have you forgotten me?  
Tears of deceit are falling from my eyes

The promised time has come  
I'm in front of you  
Though I'm crying in fear  
You wiped my tears  
You took my hand  
It will happen  
This happiness together

I paint you with my eyes closed  
I found you in my heart  
I can see the revealing light  
We can't lose a chance at eternal happiness  
Can you see me?  
Please call me to your side  
It will happen  
I love you  
Let's do it together with you forever

The message of happiness

That those green birds bring  
Stays close in our hearts

I paint you with my eyes closed  
I found you in my heart  
I can see the revealing light  
We can't lose a chance at eternal happiness  
Can you see me?  
You can call me whenever you need  
Open up your mind  
I'm in front of you  
Please call me to your side  
It will happen  
I love you  
Let's do it together with you forever
