

Cynicality

Superdrag

Cynicality couldn't comfort me again
Want to die and want to die
Anne if it's you and me it's a casualty again
Want to try and want to try and
Make it happen
Cause nothing's happening
Nothing's happening nothing's happening
Is this happnin'? is this happening?
Is this happening?

I will not expect it can only bring me down
Further down yeah further down yeah
You're in full effect I can only bring you down
Turn around yeah, turn around yeah

Make it happen
