

Destination Ursa Major

Superdrag

I'm so sensitive to light
I may never get it right
All the bloody stupid miracles and lies
Guess it's up to you to have it exorcised
What did I do? nothing is true
Whatever is over now
Sober is over now

I may never get away
I'm rejecting yesterday
Only hoping my trajectory is high
Now there will be no more pissing you goodbye

What did I do?
Destination ursa major

(sung under refrain:)
It could be that I can never get away
That's the reason I am blowing you away
Blowing you away
