

N.a. Kicker

Superdrag

You could take your precious time draining all my blood
If I ever make you mine I wonder if I could
I could be a different trip nothing but a buzz
Yes I think I'm on the tip I told you what it does
I'm sure you've heard this one a million times before
You're the one I want to adore
And I can't shut it up anymore
I just hope it's not becoming a bore
'cause I can't daydream anymore

Sending you a valentine every single day
You might say it's summertime a thousand miles away
It would be a Superdrag if you should pass me by
I could smoke a million bags, you can get me high

I'm sure you've heard this one
