

## The Emotional Kind

Superdrag

She's just the emotional kind  
But the way that she kiss drive me out of my mind  
She's just a beautiful girl  
I swear she takes me away from the world

She sends vibrations all around  
I once was lost but now am found  
Communicates without a sound  
Sometimes I quake with the brake down  
Quake with the brake down  
Quake with the brake down  
Quake with the brake down

She's just the girl of my dreams  
But I can't keep from waking as strange as that seems  
She shine like most people breathe  
If I come on agnostic she makes me believe

She send vibrations all around  
I once was lost but now am found  
Communicates without a sound  
Sometimes I quake with the brake down  
Quake with the brake down  
Quake with the brake down  
Quake with the brake down

She send vibrations all around  
I once was lost but now am found  
Communicates without a sound  
Sometimes I quake with the brake down  
Quake with the brake down  
Quake with the brake down  
Quake with the brake down
