

## Truest Love

Superdrag

You are my intoxicating wish  
So much more to live for than my fist  
If I want to breathe with you,  
Close my eyes and let you see right through  
That's a scary thing to do  
It's the very thing I do.  
It's the very thing I do

Put me on a supersonic trip.  
Very time you wake me with your lips  
If I want to bleed with you,  
Close my mouth and tell you that I do  
The truest lies are few.  
The truest lies are few  
But the truest love is you
