

## Late in the Day

Supergrass

Its late in the day, I'm thinking of you,  
The things that you say  
So long  
So long for me

Its late in the day, I'm talking to you  
Hear what i say  
So long  
So long for me

All the time I thought of you  
In an ordinary way  
We'd slip off down the oily way

All I really have to say  
As people pass along the way  
The thoughts of you and me again

I lay on my bed  
Searching my mind  
Writing my love  
So long  
So long for me

I sleep on the road  
Dream of a sound  
Coming my way  
So long  
So long for me

All the time I thought of you  
In an ordinary way  
We'd slip off down the oily way

And all I really have to say  
As people pass along the way  
The thoughts of you and me again

Ooooh

And all the time I thought of you  
In an ordinary way  
We'd slip off down the oily way

And all I really have to say  
As people pass along the way  
I close my eyes and turn away

And all the time I think of you  
In an ordinary day  
We'd slip off down the oily way  
And all I really have to say  
As people pass along the way  
The thoughts of you and me again
