

I've been around and around but I got nowhere to go now
But the funny thing is that when I'm gone I'll kill you

When I tell you, I don't want you here

I've been around and around but I got nowhere to go now
But the funny thing is that when I'm gone I'll kill you

When I tell you, I don't want you here

I've been around and around but I got nowhere to go now
But the funny thing is that when I'm gone I'll kill you

When I tell you, when I tell you, oh now when I tell you
I don't want you here!
