Moving, just keep moving,
Till I don't know what's sane,
I've been moving so long,
The days all feel the same,

Moving, just keep moving, Well I don't know why to stay, No ties to bind me, No reasons to remain,

Got a low, low feeling around me,
And a stone cold feeling inside,
And I just can't stop messing my mind up,
Or wasting my time,

There's a mow, low feeling around me, And a stone cold feeling inside, I've got to find somebody to help me, I keep you in mind,

So I'll keep moving, just keep moving, Well I don't know who I am,
No need to follow,
There's no way back again,

Moving, keep on moving, Where I feel I'm home again, And when it's over, I'll see you again,

Got a low, low feeling around me,
And a stone cold feeling inside,
And I just can't stop messing my mind up,
Or wasting my time,

There's a low, low feeling around me, And a stone cold feeling inside, I've got to find somebody to help me, I keep you in mind.
