

# Outside

Supergrass

Outside in the darkness, there's something happening here  
Outside in the darkness, speeding out through the Universe  
Hot fear and a heartbeat, standing face to face  
Red light in the distance, it's getting cold and the air is running out

Outside in the darkness, could be nothing for days  
Outside in the dullness, I can hear the devil walk about  
Flying over the rock face, and over cities in flames  
Red light in the distance, it's getting cold and the air is running out

It's on my TV screen (I'm not a static machine)  
It's on my TV screen (I'm not a static machine)
