

## Road to Rouen

Supergrass

There's damage out there some place  
You got to step aside  
Where are you going that decision is made  
That's how it started  
Too hot and dirty inside  
Contain your feelings when there's nowhere to go

Follow all the signs and they'll lead us away  
And it's all good stuff for ... today

Turn off your television  
Don't be the hatchet man  
His time has come and now I'm ready to go  
Come up and see you  
Tap into the nervous system  
Retrieve your message tell me what do I know

Follow all the signs and they'll lead us away  
But it's all good stuff for ... today

Tried on the ... time  
The truth is  
It's coming to get you and won't let go  
I'm so elated  
I'm going nowhere fast  
There's no direction so where do I go

Follow all the signs and they'll lead us away  
But it's all good stuff for ... world today
