

## Seen the Light

Supergrass

Now that our eyes have seen the light  
Well the world lies twisted and weird  
It's like our minds have taken flight  
pedelo rides up to the sun, oh yeah

Well, what you do is up to you  
Take my hat and push on through  
Well you can try to understand  
I'm a rock'n'roll singer in a rock'n'roll band

Now that our eyes have seen the light  
Well the road lies open and clear  
It's like our minds have taken flight  
Like the river runs down to the sea, oh yeah

Well, what you do is up to you  
I'll take my hat and push on through  
Well you can try to understand  
I'm a rock'n'roll singer in a rock'n'roll band

Well, what you do is up to you  
Take my hat and push on through  
Well you can try to understand  
I'm a rock'n'roll singer in a rock'n'roll band  
Thankyou very much
